VOL. XXVI. No. 68

BOSTON, MASS., WEDNESDAY, APRIL 3, 1907

PRICE THREE CENTS

TECH TAKEN IN AT LAST

START SEASON TOMORROW.

Freshman Baseball Squad To Play Noble and Greenough at the Field.

Freshman baseball is well under way. Nearly twenty-five candidates reported to Manager Avery last week, and practice is now being held at the Field every afternoon.

On Saturday the boys played a practice game with the Juniors and lost, 9 to 1. Tomorrow afternoon at the Field they will meet Noble and Greenough in the first regular game of the season.

J. AVERY, JR.

No further changes have been made in the schedule, but it is understood that the Brown freshmen will not come to the Field. If Manager Avery can arrange for a sufficient guarantee the team will go to Providence instead on April 27. The Boston College sophomores want a game for that date, and if the game with the Brown team cannot be arranged, the Freshmen will probably play the South End boys at the Field.

CHEMICAL DEPARTMENT MAKES INNOVATION.

Conferences Between Instructors.—More Co-operation Needed.

The conferences recently instituted by the Chemical Department are a new departure in the instructing system of the Institute. The trouble that has always existed between departments and even between branches of the same department has been considered an unavoidable weakness. This has been noticed especially in the discrepancies existing between preparatory and advanced courses. The cause has generally proved to be a mutual ignorance on the part of the professors of each other's work.

To remedy this there has been instituted a new scheme, for which Dr. Talbot is responsible. It consists of holding Course conferences.

(Continued on Page 3.)

IN SPITE OF HARVARD'S OPPOSITION INTER-COLLEGIATE FENCING ASSOCIATION ADMITS INSTITUTE

ANOTHER CHANCE TO WIN CLASS NUMERALS.

Ferris Persuades Major Briggs to Grant Numerals to Winners of Fresh-Soph Cross Country Race.

Large Number out for Penn. Relay Race.

In the coming Freshmen-Sophomore cross country race the men finishing in the first three positions will be given class numerals. This decision has just been given by the Advisory Council. To the efforts of Manager Ferris is due this important concession. The run will be held in May over the regular Tech-Harvard course in Roxbury. This date gives ample time for the men to get into shape.

This addition to the opportunities for winning class numerals was brought about by the scarcity of good long distance men in the lower classes. Although there is a strong bunch of Juniors and Seniors in the cross country work, there is always a necessity of looking into the future. The course is being changed for the first time by H. H. Howland, '08; J. N. Stephenson, '09, and M. Ames, '08.

There will be an opportunity for the new men to get in practice in the several hare and hounds runs that are to be held in the next few weeks. There will be a run at Reading on Saturday next, a special car having been secured by the management to leave the North Station at 2.10 P.M. On the following Saturday comes the popular Wellesley run.

There has been little or no track work in the past two days owing to the cold spell. Several of the weight men have been working behind the Gym. The squad now out for the Penn relay team is made up of C. W. Gram, '09; R. B. Todd, '08; G. S. Gould, '07; K. D. Fernstrom, '10; H. W. Blackburn, '08; R. M. Keeney, '09; A. A. Gould, '10; L. O. Mills, '10; H. J. Wertheim, '09; E. L. Moreland, '08; A. L. Moses, '09; E. Stuart, '10; I. Emerson, '09; G. H. Chapman, '08; E. L. Grunsky, '08.

Attention is again called to the date of the preliminary trials on April 9. A small squad will be picked at that time, to be thinned out later.

RUN THROUGH FIRST ACT.

Last Saturday afternoon, for the first time, the entire cast of the Show worked together at the Union, getting in some of the finishing touches on the first act. The act was first worked carefully through from beginning to end, and then run through much as it would be on the stage.

The work went with surprising

(Continued on Page 3.)

HARVARD MEN FIGHT HARD TO KEEP TECH OUT.

Say That Another Member Makes Meet Unwieldy. Nine Colleges in League Now.

At a meeting of the Intercollegiate Fencing Association Sunday, Technology was elected to membership. The only opposition to the election was made by the Harvard representatives, who made a hard fight to keep the Institute from the association.

Harvard's opposition, as stated in the meeting, was based on the argument that to admit another team to the association would make the annual meets unwieldy. At present it takes two days of continuous fencing to run off the meet and the addition of another team will make three days necessary.

Harvard's strong opposition to Technology came as a surprise, in view of the fact that last year Harvard was one of the colleges that threatened to resign from the association unless Technology was admitted to membership.

The Fencing Team has been endeavoring for a number of years to be admitted to the Intercollegiate Fencing Association and until this year has always been voted down. Last year West Point opposed the election on the grounds that Technology was not a university and that the association should be open only to universities.

As a precedent it was pointed out that Technology had a team in the Intercollegiate Cross Country Association, but the application was rejected. Harvard, Cornell and Columbia resigned from the old body and, together with the Institute, formed a new league. This league went to pieces in a short time and the three colleges rejoined the older association.

At present it is not known why Harvard should so strongly oppose Tech's admittance to the association. It is noticeable that the two teams have not met this year and that neither made any effort to meet the other. It is rumored that Harvard's coach has an old grudge against Lucien Fournon, the Tech coach, and that he has done all in his power to hurt the Tech team.

TECH MAN GETS POSITION.

Mr. George R. Taylor, a graduate student in the Biological Department, has just received an important appointment as chemist and bacteriologist to the Scranton Gas and Water Company, Scranton, Penn.

During the past winter Scranton has suffered from a terrible epidemic of 1100 cases of typhoid

(Continued on Page 4.)

CALENDAR.

WEDNESDAY, APRIL 3.

- 4.00 P.M. T. W. Sprague talks on "Electricity in Mining" in 2 Rogers.
- 4.15 P.M. Tech Show Chorus Rehearsal at the Union.
- 4.15 P.M. Glee Club Rehearsal at the Y. M. C. A.
- 5.00 P.M. Class Day Committee Meeting in 27 Rogers.
- 6.30 P.M. Mechanic Arts High School Dinner at the Union.

THURSDAY, APRIL 4.

- 1.30 P.M. Weekly Y. M. C. A. Meeting in Parish Hall of Trinity Church.
- 4.00 P.M. Banjo Club Rehearsal in 33 Rogers.
- 4.00 P.M. Baseball: 1910 vs. Noble and Greenough.
- 4.15 P.M. Tech Show Principals Rehearsal at the Union.

FRIDAY, APRIL 5.

- 4.00 P.M. Mandolin Club Rehearsal in 31 Rogers.
- 4.15 P.M. Glee Club Rehearsal at the Y. M. C. A.
- 4.15 P.M. Tech Show Dancers and Specialties Rehearsal at the Union.

NOTICES.

Professor Swain's reading on Monday, April 1, was unavoidably postponed. The next reading will come at the regular hour on Monday, April 8.

M. A. H. S. Club.—The second annual dinner of the M. A. H. S. Club will be held at the Union Wednesday, April 3, at 6.30 P.M. Tickets 50 cents. Please purchase in advance.

Round Table.—At the last dinner of the Round Table, held at the Hotel Cecil, the following new members were taken in: I. B. Avery, '10; H. Lockett, '10, and A. F. Glasier, '10.

Y. M. C. A.

The Young Men's Christian Association's year among the colleges extends from April to April, consequently the newly elected officers of the Tech Association will begin their duties this week.

The regular Thursday-noon meetings from now on will be in charge of J. G. Reid, who was recently elected president. Mr. Reid comes from Canton, Miss., having graduated from Southwestern Presbyterian University and taken a year of post-graduate work at the University of Mississippi before entering Tech.

At the meeting tomorrow at 1.30 P.M. the Rev. James Alexander will give the second of his series of three addresses before the Association. He has announced as his subject "Belief in God, An Asset to a Man." The meeting is open to all Tech men.

POSITIONS FOR EVERYBODY.

Call at the Parker House today for interview with Hapgood's men if you want a good position in business, teaching and technical work.

THE TECH

Published every Monday, Wednesday, and Friday during the college year (from September to June), by students of the Massachusetts Institute of Technology.

Entered as second-class matter October 6, 1904, at the post office at Boston, Mass., under the Act of Congress of March 3, 1879.

Wednesday, April 3, 1907.

THE TECH notes with great satisfaction that its efforts in a certain line have at last been crowned with success. The banner which the Institute won from Harvard in the Cross Country Run is hung in its proper place over in the Union, and the men who were entitled to receive cups are now in possession of the same.

A short time ago a reporter from THE TECH experienced a rebuff from one of the members of the Faculty who is located in Lowell Building, while soliciting news for THE TECH. While THE TECH understands fully that it is quite possible that some of the Faculty are in possession of information which they would not care to see published, it would be more conducive to a friendly co-operation between THE TECH and the Faculty if some tact were used in denying this information to our reporters. As it is the object of THE TECH as well as every member of the Faculty to further everything pertaining to the best interests of Technology, we hope that no friction will arise that would in any way detract from the harmony with which we work for this end!

The progress of the '09 Technique up to date has been rapid and uninterrupted, but this state of affairs does not promise to continue if the class does not respond more readily to the request of the Art Committee for drawings. The committee has been forced to extend the time for closing the competition to April 8. This is holding up all the business of the board.

as it is impossible to proceed with the adoption of a constitution or the election of officers until the board is complete.

The Art Staff of *Technique* is one of its most important branches, and it does seem as though there should be some competitive effort made to get it, and in that way bring out the best material in the class. So far only four people have handed in drawings, and there are three places on the staff. Such a state of affairs can not be called a competition. It is a sure thing.

Now what '09 wants to do is to get busy. Every man in the class that can draw at all should hand in drawings. Every '09 architect should have in one or two at least. Remember this is not a school of talented artists but of engineers, and any artistic ability, however slight, will help make the '09 year book worthy of the name *Technique*, and should not be begrudged.

TARGET PRACTICE REPORTS.

Regular target practice was held Saturday afternoon under the auspices of the M. I. T. Battalion at Walnut Hill. The following were the three best scores made out of a possible 75. P. Hart, 59; E. A. Turner, 58; J. H. O'Neill, 51.

RUN THROUGH FIRST ACT.
(Continued from Page 1.)

smoothness for this time of year, and it spoke well for the abilities of Mr. Francis and Mr. Flockton. The singing was above criticism, and the complicated movements of the chorus were gone over with surprising ease. The principals also did their share, as there was not a single instance in which lines were forgotten, and the solo work was a surprise.

MILITARY INSPECTION.

Following the usual custom, an annual tour of inspection of the institutions teaching military science, will soon be made by an officer representing the United States government. Captain Michael J. Lenihan, 25th. U. S. Infantry, has been the officer designated by the War Department to make the inspection of the military department at the Institute. Major Wheeler expects him to arrive some time early in May, when he will review the battalion and report on the workings of the system to the government.

PROM. PROGRAMME OUT.

Preliminary dance orders for the Junior Prom are now ready and may be obtained from members of the committee. All dances appearing on this order are guaranteed. There will be a three-quarter hour intermission after the eighteenth dance. Any man who contemplates going to the Prom should sign up at once.

Prom tickets are not transferable and will not be honored if presented by any other than the man signing for it.

CHEMICAL DEPARTMENT.
(Continued from Page 1.)

ces to which all the Faculty and members of the Instructing Staff are invited. The general divisions of the work in Chemistry are taken up by the different men that have them in charge. It is hoped in this way to make the members of the teaching staff acquainted with what the Chemistry Department is doing.

The Conference started three weeks ago, when Prof. Talbot started the course with a talk on the teaching of First Year Chemistry. The next week Dr. Noyes spoke on Theoretical Chemistry and was followed in turn by Dr. Fay with a talk on the Analytical side of the subject. On this coming Friday, Professors Thorp and Walker will outline the methods of instruction in Industrial Chemistry and the following week Professors Moore and Mulliken will speak on their phase of the subject, Organic Chemistry. When these general heads have been covered, Dr. Talbot hopes to make the conferences a permanent institution and hold them several times during the year. The plan has so far proved very successful and seems destined to be adopted by some of the other departments. In this way a much closer co-operation between the different branches may be secured.

TECH SENIORS WANTED.

M. I. T. Seniors wanted for good position in business, teaching and technical work. See Hapgood's men at the Parker House today.

TECH MAN GETS POSITION.
(Continued from Page 1.)
fever due to an infected storage reservoir, and, although the epidemic is now over, the Water Company naturally desires to take every possible precaution against similar catastrophes in the future.
Acting under the advice of Professor Sedgwick it has accordingly decided to establish a sanitary testing laboratory in which constant supervision may be kept of the chemical and bacteriological condition of the water supply, and Mr. Taylor has been appointed to organize, equip and operate the new laboratory. He has already arrived in Scranton and begun his work.
Mr. Taylor is a graduate in chemistry (under Professor Kinnicut, M. I. T., '75, the eminent sanitary chemist) of the Worcester Polytechnic Institute, and after serving as assistant in general chemistry for two years at Tech joined the Biological Department last summer as a graduate student.
